Organizing Committees

- General Chair
Weiming Shen (Canada)
- PC Chair
Jingshan Li (USA)
- PC Co-Chairs
Qing-Shan Jia (China)
Andrea Matta (Italy)
George Huang (China)
Satyandra Gupta (USA)
- Local Organizing Committee Chairs
Ryozo Nagamune (Canada)
Min Xia (Canada)
- Finance Chair
Chunsheng Yang (Canada)
- Publicity Chairs
Mariagrazia Dotoli (Italy)
Yuming Zhang (USA)
Burak Gunay (Canada)
- Publication Chairs
Liang Gao (China)
Liang Zhang (USA)
- Special Session Chairs
Yan Lu (USA)
Feng Ju (USA)
Xiang Zhong (USA)
Lars Monch (Germany)
- Workshop & Tutorial Chairs
Xiaolei Xie (China)
J. Cecil (USA)
- Award Chair
Leyuan Shi (USA)
- Registration Chair
Hesuan Hu (Singapore)
- Exhibition Chair
Biao Zhang (USA)
- Student Activity Chairs
Hyo Kyung Lee (USA)
Megan Emmons (USA)

Steering Committee

- Bengt Lennartson (Chair) (Sweden)
- Fan-Tien Cheng (Taiwan)
- Hyouk Ryeol Choi (Korea)
- Nak Young Chong (Japan)
- Martin Fabian (Sweden)
- Maria Pia Fanti (Italy)
- Cesare Fantuzzi (Germany)
- Ken Goldberg (USA)
- Xiaohong Guan (China)
- Larray Holloway (USA)
- Qing-Shan Jia (China)
- Sukhan Lee (Korea)
- Peter B. Luh (USA)
- Yadati Narahari (India)
- Dan Popa (USA)
- Spyros Reveliotis (USA)
- Kazuhiro Saitou (USA)
- Leyuan Shi (USA)
- Yu Sun (Canada)
- N. Vishwanadham (India)
- Birgit Vogel-Heuser (Germany)
- Michael Wang (China)
- John Wen (USA)
- Mengchu Zhou (USA)

Scope of Conference

IEEE International Conference on Automation Science and Engineering (CASE) is the flagship automation conference of the IEEE Robotics and Automation Society and constitutes the primary forum for cross-industry and multidisciplinary research in automation. Its goal is to provide a broad coverage and dissemination of foundational research in automation among researchers, academics, and practitioners. IEEE CASE 2019 will be held in Vancouver, BC, Canada, on August 22-26, 2019. The theme of the conference is **Smart Automation**.

Submission of Special Session / Workshop Proposals and Regular Papers

IEEE CASE 2019 invites special session proposals, workshop proposals, regular papers, work-in-progress and industry papers related to the topics of the conference, which include but are not limited to:

- Adaptive automation systems
- Agent-based collaborative automation systems
- Automated fault detection, diagnostics, and prognostics
- Automation in life science
- Autonomous systems
- Big data, data mining, and machine learning
- Cloud-based automation
- Cognitive Automation
- Cyber physical production systems and industry 4.0
- Cybersecurity in automation systems
- Human-in-the-loop, human-machine interactions, human-robot / robot-robot collaboration
- Micro- and nano-scale automation technologies and applications
- Modeling, simulation, and optimization of automation systems
- Networked control systems
- Power and energy system automation
- Sensor-fusion for intelligent automation systems
- Smart factories, smart logistics and supply chains
- Smart products with embedded intelligence
- Smart automation in construction and manufacturing
- Smart home/building automation
- Smart and connected healthcare automation
- Standardization in smart manufacturing/home/building/healthcare etc.
- Sustainability and green automation
